FOR IMMEDIATE RELEASE
October 20, 2015

ERGOCENTRIC® ANNOUNCES EXCLUSIVE PARTNERSHIP FOR AFFORDABLE HEIGHT ADJUSTABLE TABLES.

Mississauga, Ontario, Canada – October 20, 2015 - TiMOTION, the designer and manufacturer of high-quality linear actuators and integrated control systems, has selected ergoCentric Seating Systems (ergoCentric®), an ergonomic seating systems manufacturer with over twenty-five years of experience in providing superior ergonomic solutions, as its exclusive Canadian partner for height adjustable tables.

The [upCentric™](#) brand of height adjustable table utilizes TiMOTION's actuator and control box technologies, allowing the upCentric table to be easily raised and lowered and provides quiet and smooth movement. It is the first product in a series of tables and desking systems ergoCentric will produce using TiMOTION's actuators.

"We're thrilled to work with a partner like TiMOTION whose technology is based on many years of experience," says Terry Cassaday, owner of ergoCentric. "The demand for height adjustable work surfaces continues to grow and we're pleased to provide our customers with the upCentric, a durable, low-cost and easy-to-install solution, as a complement to our ergonomic seating systems."

The upCentric is available in 2-leg and 3-leg versions and features an easy-to-use up/down electronic push-button control with up to four saved heights.

The upCentric height adjustable table frame accommodates a variety of different tabletop sizes allowing users to economically convert existing work surfaces into sit-to-stand solutions. It can support single and dual display monitor applications and customers have complete customization of the tabletop finish from wood veneer and laminates or can opt to supply their own tabletop.

"ergoCentric's reputation for providing high-quality products and service is the reason we chose them as our exclusive partner in Canada," explains Steve Buck, Sales Engineer at TiMOTION. "With sales representation and a dealer network spanning the country, ergoCentric brings real, measurable value to TiMOTION."

The upCentric is available through select dealers in both Canada, the United States or online at ergocentricstore.com.
