# Mobile sit-stand workstation. A flexible solution.

The upCentric® Mobile Height Adjustable Workstation is the perfect multipurpose desk. It provides a sturdy, height adjustable work surface that is easily maneuvered to any room in your office or home. Can be used as a rolling podium, portable laptop desk or lectern for classrooms.

The upCentric Mobile Workstation glides smoothly on four dual wheel casters, with two lockable casters to keep the workstation secure when not in motion. The pneumatic cylinder allows for a quick, smooth transition from sitting to standing. Easy assembly.
